### Funds from Other Sources

List all contributors (e.g., host institution or organization, individuals, not-for-profit organizations, philanthropic foundations and private sector organizations), that are providing cash and/or in-kind contributions for the proposal. Indicate whether or not these funds have been confirmed.

If a funding source is not listed, you must:

- type the source name in Funding Source
- identify the contribution type
- enter an amount.

If you have received more than one contribution of the same type from a single funding source (i.e., cash or in-kind) and same confirmation status, you must combine these into one entry (e.g., two confirmed \$20,000 cash contributions from a university become one confirmed \$40,000 cash contribution). Enter amounts rounded off to the nearest dollar—in Canadian currency—without spaces or commas (e.g., 40000). For blank entries, leave in the "0" value.

For examples of Canadian and international sources of eligible cash and/or in-kind support, see [SSHRC's Guidelines for Cash and In-Kind Contributions](#).

**Note:** All contributions must be indicated in Canadian currency.
